

OpenCAPI Consortium Intellectual Property Rights (IPR) Policy

1. Introduction

The OpenCAPI Consortium Intellectual Property Rights (IPR) Policy (hereinafter referred to as the Policy) governs the treatment of confidential information and intellectual property shared by the Members for the Purpose of the OpenCAPI (as defined in the OpenCAPI Bylaws) including in the production of deliverables by the OpenCAPI Consortium (hereafter referred to as OpenCAPI).

Except as provided below with respect to “Exception,” this Policy applies to all members of OpenCAPI and their Affiliates (as defined in the OpenCAPI Bylaws). The OpenCAPI Board Members may amend this Policy at any time pursuant to the Bylaws. In the event of such change to this Policy, the Board will provide instructions for transition of membership and OpenCAPI Work Groups to the new Policy; however, no amendment to this Policy will be effective in less than sixty (60) calendar days from the date that written notice of such amendment is given to the Member at its address of record with OpenCAPI.

Any Member or potential Member that finds it impossible to bind all of its Affiliates to comply with this Policy, or otherwise believes that the application of this Policy to all of its Affiliates would result in unfairness, as applied in its unique circumstances, may apply for a limited and fact-specific exemption on such form as OpenCAPI may from time to time make available for that purpose. Upon receipt of such application (which shall include the means by which the applicant commits to ensure that its non-covered Affiliates will not have access to any Member-only OpenCAPI information), the OpenCAPI Board of Directors shall consider such request and respond in a fair and non-discriminatory manner.

2. Definitions

Each capitalized term within this document shall have the meaning provided below:

1. **Code** – computer software (either source or object versions), including XML schema, DTDs, and other data or document formats.

2. **Continuing Licensing Obligation** - a licensing or non-assertion obligation, of the types defined by Sections 6 and 9 of this Policy, which survives a Work Group Party's withdrawal from an OpenCAPI Work Group.

3. **Contribution** - any material submitted to an OpenCAPI Work Group by a Work Group Member of its material, in writing or electronically, whether in an in-person meeting or in any electronic

conference or distribution to a mailing list maintained by OpenCAPI for the OpenCAPI Work Group for inclusion in an OpenCAPI Deliverable.

4. **Contribution Obligation** - a licensing or non-assertion requirement, as described in Section 10, that results from making a Contribution as described in Section 9.1.
5. **Contributor** - a Work Group (WG) Party on whose behalf a Contribution is made by the WG Party's WG Member.
6. **Eligible Person** - one of a class of individuals that include: persons holding individual memberships in OpenCAPI, employees or designees of organizational members of OpenCAPI, and such other persons as may be designated by the OpenCAPI Board.
7. **Essential Claims** - those claims in any patent or patent application in any jurisdiction in the world that would necessarily be infringed by an implementation of those portions of a particular OpenCAPI Standards Final Deliverable or OpenCAPI Standards Draft Deliverable created within the scope of the Work Group charter in effect at the time such deliverable was developed. A claim is necessarily infringed hereunder only when it is not feasible to avoid infringing it because there is no commercially reasonable non-infringing alternative for implementing the Normative Portions of that particular OpenCAPI Standards Final Deliverable or OpenCAPI Standards Draft Deliverable. Existence of a commercially reasonable non-infringing alternative shall be judged based on the state of the art at the time the OpenCAPI Standards Final Deliverable is approved.
8. **Feedback** – (a) any written or electronic input provided to an OpenCAPI Work Group (WG) by individuals who are not Eligible Persons. All such non-Eligible Person Feedback must be made under the terms of the Contribution/Feedback License (Appendix A) and the non-Eligible Person shall provide a signed copy of such Contribution/Feedback License to the relevant WG(s); (b) any written or electronic input provided to an OpenCAPI Work Group by Eligible Persons who are not WG Members of the relevant WG. All such non-WG Member Feedback is hereby irrevocably granted under the Contribution/Feedback License (Appendix A) without further action by such Eligible Persons. For avoidance of doubt, such Eligible Persons, by virtual of their status as Eligible Persons, have granted, and agreed to grant, the Contribution/Feedback License upon becoming an Eligible Person and have forfeited any right to object to the granting of this Feedback License.
9. **Final Maintenance Deliverable** - Any OpenCAPI Standards Final Deliverable that results entirely from Maintenance Activity.

10. **IPR Mode** - an element of an OpenCAPI Work Group charter, which specifies the type of licenses required for any Essential Claims associated with the output produced by a given Work Group. This is further described in Section 3.2 and Section 10.
11. **Licensed Products** - includes only those specific portions of a Licensee's products (hardware, software or combinations thereof) that (a) implement and are compliant with all Normative Portions of an OpenCAPI Standards Final Deliverable that must be implemented to comply with such deliverable, and (b) to the extent that the Licensee's products implements one or more optional portions of such deliverable, those portions of Licensee's products that implement and are compliant with all Normative Portions that must be implemented to comply with such optional portions of the deliverable.
12. **Licensee** - any organization, including its Affiliates as defined in this Policy, or individual that licenses Essential Claims from Obligated Parties for a particular OpenCAPI Standards Final Deliverable.
13. **Maintenance Activity** - Any drafting or development work to modify an OpenCAPI Standards Final Deliverable that (a) constitutes only error corrections, bug fixes or editorial formatting changes to the OpenCAPI Standards Final Deliverable; and (b) does not add any feature; and (c) is within the scope of the Work Group that approved the OpenCAPI Standards Final Deliverable (whether or not the work is conducted by the same WG).
14. **Normative Portion** - a portion of an OpenCAPI Standards Final Deliverable that must be implemented to comply with such deliverable. If such deliverable defines optional parts, Normative Portions include those portions of the optional part that must be implemented if the implementation is to comply with such optional part. Examples and/or reference implementations and other specifications or standards that were developed outside the Work Group and which are referenced in the body of a particular OpenCAPI Standards Final Deliverable that may be included in such deliverable are not Normative Portions.
15. **OpenCAPI Deliverable** - a work product developed by a Work Group within the scope of its charter which is enumerated in and developed in accordance with the OpenCAPI Work Group Process.

16. **OpenAPI Standards Draft Deliverable** - an OpenAPI Deliverable that has been designated and approved by a Work Group as an OpenAPI Standards Draft Deliverable and which is enumerated in and developed in accordance with the OpenAPI Work Group Process.
17. **OpenAPI Standards Final Deliverable** - an OpenAPI Deliverable that has been designated and approved by a Work Group as an OpenAPI Standards Final Deliverable and which is enumerated in and developed in accordance with the OpenAPI Work Group Process.
18. **OpenAPI Party** - a member of OpenAPI (i.e., an entity that has executed an OpenAPI Membership Agreement) and its Affiliates.
19. **Work Group (WG) Lead** - the person(s) appointed to represent/support OpenAPI in administrative matters relating to Work Groups as provided by the OpenAPI Work Group Process.
20. **OpenAPI Work Group (WG)** - a group of Eligible Persons formed, and whose actions are conducted, according to the provisions of the OpenAPI Work Group Process.
21. **OpenAPI Work Group Process** - the "OpenAPI WORK GROUP PROCESS", as from time to time amended, which describes the operation of Work Groups at OpenAPI.
22. **Obligated Party** - a Work Group Party that incurs a licensing obligation for its Essential Claims by either a Contribution Obligation or a Participation Obligation.
23. **Open Source** – A software package released under an open source license approved by the Open Source Initiative (<http://opensource.org/licenses>).
24. **Open Source Software (OSS) Community** – A formal or informal community organized around an open source development model or software package, such as, but not limited to, The Apache Foundation and Eclipse Foundation.
25. **Participation Obligation** - a licensing requirement, as described in Section 10, that arises from membership in an OpenAPI Work Group, as described in Section 9.2.
26. **RAND Mode WG** - an OpenAPI Work Group that is chartered under the RAND IPR Mode described in Section 10.

27. **WG Member** - an Eligible Person who has completed the requirements to join a Work Group (WG) as defined in the eligibility requirements section of the Work Group Charter during the period in which s/he maintains his or her WG membership as described by the OpenCAPI Work Group Process. A WG Member may represent the interests of a WG Party in the WG.
28. **WG Party** - an OpenCAPI Party that is, or is represented by, a Work Group Member in the relevant Work Group.

3. Work Group Formation

- 3.1 The OpenCAPI Board shall charter the WG and name the WG Lead.
- 3.2 At the time a WG is chartered, the proposal to form the WG must specify the IPR Mode under which the Work Group will operate, as described in Section 10.
- 3.3 At the time a WG is chartered, the proposal to form the WG must specify the Confidentiality Mode under which the Work Group will operate, as described in Section 4. If no Confidentiality Mode is specified, then the default will be Written Confidentially Mode.
- 3.4 [Intentionally Left Blank]
- 3.5 [Intentionally Left Blank]
- 3.6 At the time a WG is chartered, the proposal to form the WG must specify any eligibility requirements to join the WG. If no eligibility requirements are specified, eligibility will be limited to Eligible Persons. A WG may not change its IPR Mode or Policy.

4. Confidentiality

If the WG Charter states that Contributions are confidential, then Contributions and Feedback are subject to a requirement of confidentiality as described in the WG Charter. If the WG Charter specifies that Contributions are non-confidential then neither Contributions nor Feedback that are subject to any requirement of confidentiality may be considered in any part of the OpenCAPI Work Group Process and all Contributions and Feedback will therefore be deemed to have been submitted on a non-confidential basis, notwithstanding any markings or representations to the contrary, and OpenCAPI shall have no obligation to treat any such material as confidential.

This Policy describes the following Confidentiality Modes:

- 4.1 [Intentionally left Blank]
- 4.2 Formation Confidentiality – this Confidentiality Mode allows the WG to list specific documents in the WG charter that shall be kept confidential for the length of time specified by the WG (with a default of five (5) years) from the date of formation of the WG, or until such information is publicly released in an OpenCAPI Deliverable.
- 4.3 Written Confidentiality (default status for a WG if not specified) – this Confidentiality Mode requires that all WG Members and WG Parties keep confidential all written or electronic information provided to the WG by a WG Member or WG Parties that is marked as confidential for the length of time specified in the WG Charter (with a default of five (5) years), or until such information is publicly released in an OpenCAPI Deliverable.

These Confidentiality Modes are described in more detail in Appendix C. In the event of a conflict between this Section 4 and Appendix C, the detailed confidentiality terms in Appendix C govern. For avoidance of doubt, these terms automatically apply when a WG selects a confidentiality mode under section 4.2 or 4.3 and are not optional or modifiable by the WG.

All OpenCAPI Parties are deemed to agree to the terms in Appendix C of each WG’s chosen Confidentiality Mode.

5. Contributions

5.1 General

At the time of submission of a Contribution for consideration by an OpenCAPI Work Group, each named co-Contributor (and its respective Affiliates) is deemed to agree to the following terms and conditions and to make the following representations (based on the actual knowledge of the WG Member(s) making the Contribution, with respect to items 3 - 5 below, inclusive):

1. OpenCAPI has no duty to publish or otherwise use or disseminate any Contribution.
2. OpenCAPI may reference the name(s) of the Contributor(s) for the purpose of acknowledging and publishing the Contribution.

3. The Contribution properly identifies any holders of copyright interests in the Contribution.
4. If the relevant WG Charter requires that information be kept confidential, such information shall be kept confidential according to the terms of the WG's chosen confidentiality policy.
5. If the relevant WG Charter does not require that information be kept confidential, no information in the Contribution is confidential, and OpenCAPI may freely disclose any information in the Contribution.
6. There are no limits to the Contributor's ability to make the grants, acknowledgments, and agreements required by this Policy or a WG Charter with respect to such Contribution.
7. Except as provided above, CONTRIBUTIONS ARE PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED. NOTWITHSTANDING ANYTHING TO THE CONTRARY IN THIS SECTION 5.1, CONTRIBUTORS EXPRESSLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR OR INTENDED PURPOSE, ACCURACY, COMPLETENESS, NON-INFRINGEMENT OF THIRD PARTY RIGHTS, OR ANY OTHER WARRANTY.

5.2 Copyright Licenses

5.2.1. To the extent that a Contributor holds a copyright interest in its Contribution, such Contributor grants to OpenCAPI a perpetual, irrevocable, non-exclusive, royalty-free, worldwide copyright license, with the right to directly and indirectly sublicense, to copy, publish, and distribute the Contribution in any way, and to prepare derivative works that are based on or incorporate all or part of the Contribution solely for the purpose of developing and promoting the OpenCAPI Deliverable and enabling the implementation of the same by Licensees.

5.2.2. To the extent that a Contribution is subject to copyright by parties that are not Contributors, the submitter(s) must provide OpenCAPI with a signed "Copyright License Grant" (Appendix B of this Policy) from each such copyright owner whose permission would be required to permit OpenCAPI to exercise the rights described in Appendix B of this Policy.

5.2.3. To the extent that a Contribution is subject to copyright by parties that are not Contributors and the Contribution has been previously licensed under an Open Source License, the Contribution shall be provided under the existing Open Source license. For avoidance of doubt, an OpenCAPI Party or Eligible Person shall not contribute code under an Open Source license and make use of this Section 5.2.3 to avoid the requirements of Section 5.2.1.

5.2.4. For each Contribution to a WG and to the extent that OpenCAPI holds a copyright interest and/or the right to license such Contribution, OpenCAPI grants, and agrees to grant, to each WG Party and each WG Member who is a member of the WG(s) receiving such Contribution a perpetual, irrevocable, non-exclusive, royalty-free, worldwide copyright license, with the right to directly and indirectly sublicense, to copy, publish, and distribute the Contribution in any way, and to prepare derivative works that are based on or incorporate all or part of the Contribution solely for the purpose of developing and promoting the OpenCAPI Deliverable and enabling the implementation of the same by Licensees.

For the avoidance of doubt, no patent licenses are granted by this Section 5.2, by implication, estoppel, or otherwise.

5.3 Trademarks

5.3.1. Trademarks or service marks that are not owned by OpenCAPI shall not be used by OpenCAPI, except as approved by the OpenCAPI Board, to refer to work conducted at OpenCAPI, including the use in the name of an OpenCAPI WG, an OpenCAPI Deliverable, or incorporated into such work.

5.3.2. No OpenCAPI Party may use an OpenCAPI trademark or service mark in connection with an OpenCAPI Deliverable or otherwise, except in compliance with a written license agreement and usage guidelines as OpenCAPI may specify.

5.4 Tools, Documents, and Reference Implementations

5.4.1. An OpenCAPI Party may contribute software tools, simulation models, and other software items (“Tools”), in binary or source code form, to OpenCAPI. OpenCAPI shall then make the Tools available to OpenCAPI Parties under a fee-free and royalty-free license: (a) that allows for both commercial and non-commercial use, linking, creation of

derivative works, performance and distribution of such Tools in binary form, (b) that shall not restrict the form of distribution or type of software used therewith (by way of example and not of limitation, the license to the Tools shall not require distribution of software linked with the Tools to be distributed in source code form), and (c) that may optionally prohibit reverse engineering, decompilation and attempts to determine the source code thereof.

5.4.2. An OpenCAPI Party may contribute documentation, specifications and other information (“Documents”) to OpenCAPI. OpenCAPI shall then make the Documents available to OpenCAPI Parties and/or the public at large under a fee-free and royalty-free license: (a) that allows for commercial and non-commercial copying; and (b) may prohibit creation of derivative works therefrom.

5.4.3 An OpenCAPI Party may contribute an implementation of a specification (“Reference Implementations”) to OpenCAPI. OpenCAPI shall then make the Reference Implementation available to OpenCAPI Parties under a fee-free and royalty-free license: (a) that allows for both commercial and non-commercial use, and the creation of derivative works therefrom; and (b) that prohibits non-confidential distribution and performance of the Reference Implementations and any derivative works thereof.

6. Limited Patent Covenant for Deliverable Development

To permit WG Members and their WG Parties to develop implementations of OpenCAPI Standards Draft Deliverables being developed by a WG, each WG Party represented by a WG Member in a WG, at such time that the WG Member joins the WG, grants to each other WG Party in that WG automatically and without further action on its part, and on an ongoing basis, a limited covenant not to assert any Essential Claims required to implement such OpenCAPI Standards Draft Deliverable and covering making or using (but not selling or otherwise distributing) an implementation of such OpenCAPI Standards Draft Deliverable, solely for the purpose of testing and developing such implementation and only until either the OpenCAPI Standards Draft Deliverable is approved as an OpenCAPI Standards Final Deliverable or the Work Group is closed.

7. Feedback

OpenCAPI encourages Feedback to OpenCAPI Deliverables from both OpenCAPI Parties and those who are not Eligible Persons. Feedback will be accepted only under the "Contribution/Feedback License" (Appendix A) from non-Eligible Persons. OpenCAPI will require that non-Eligible Person submitters of Feedback agree to the terms of the Feedback License before transmitting submitted

Feedback to the Work Group. Eligible Persons hereby agree to the Feedback License upon becoming Eligible Persons.

8. Disclosure

8.1. Disclosure Obligations -Each WG Party in a WG with an IPR Mode of “RAND” shall reasonably promptly disclose to OpenCAPI in writing the existence of all patents and/or patent applications owned or claimed by such WG Party that are actually known to the WG Member directly participating in the WG, and which such WG Member believes may contain any Essential Claims or claims that might become Essential Claims upon approval of an OpenCAPI Standards Final Deliverable as such document then exists (collectively, "Disclosed Claims").

8.2. Disclosure of Third Party Patent Claims - Each WG Party whose WG Members become aware of patents or patent applications owned or claimed by a third party that contain claims that might become Essential Claims upon approval of an OpenCAPI Standards Final Deliverable should disclose such patents or patent applications, provided that such disclosure is not prohibited by any confidentiality obligation binding upon such WG Party and/or WG Member. It is understood that any WG Party that discloses third party patent claims to OpenCAPI does not take a position on the essentiality or relevance of the third party claims to the OpenCAPI Standards Final Deliverable in its then-current form.

In both cases (Sections 8.1 and 8.2), it is understood and agreed that such WG Party(s)' WG Member(s) do not represent that they know of all potentially pertinent claims of patents and patent applications owned or claimed by the WG Party or any third parties. For the avoidance of doubt, while the disclosure obligation under Sections 8.1 and 8.2 applies directly to all WG Parties, this obligation is triggered based on the actual knowledge of the WG Party's WG Members regarding the WG Party's patents or patent applications that may contain Essential Claims.

8.3. Disclosure Requests - All OpenCAPI Parties are encouraged to review OpenCAPI Standards Final Deliverables and make appropriate disclosures.

8.4. Limitations - A disclosure request and the obligation to disclose set forth above do not imply any obligations on the recipients of disclosure requests (collectively or individually) or on any OpenCAPI Party to perform or conduct patent searches. Nothing in this Policy nor the act of receiving a disclosure request for an OpenCAPI Standards Final Deliverable, regardless of whether it is responded to, shall be construed or otherwise interpreted as any kind of express or implied

representation with respect to the existence or non-existence of patents or patent applications which contain Essential Claims, other than that such WG Party has acted in good faith with respect to its disclosure obligations.

9. Types of Obligations

9.1 Contribution Obligation

A WG Party has a Contribution Obligation, which arises at the time the Contribution is submitted to a WG, to license as appropriate for the IPR mode described in Section 10, any claims under its patents or patent applications that become Essential Claims when such Contribution is incorporated (either in whole or in part) into (a) the OpenCAPI Standards Final Deliverable produced by the WG that received the Contribution, or (b) any Final Maintenance Deliverable with respect to that OpenCAPI Standards Final Deliverable.

9.2 Participation Obligation

A WG Party has a Participation Obligation to license as appropriate for the IPR mode, as described in Section 10, any claims under its patents or patent applications that would be Essential Claims in the then current OpenCAPI Standards Draft Deliverable, if that draft subsequently becomes an OpenCAPI Standards Final Deliverable, even if the WG Party is not a Contributor, when all of the following conditions are met:

- an OpenCAPI Standards Final Deliverable is finally approved that incorporates such OpenCAPI Standards Draft Deliverable, either in whole or in part;
- The WG Party has been on, or has been represented by WG Member(s) on such WG for a total of thirty (30) calendar days, which need not be continuous; and
- The WG Party is on, or is represented by WG Member(s) on such WG after a period of twenty-one (21) calendar days after the ballot to approve such OpenCAPI Standards Draft Deliverable has elapsed.

Once the foregoing conditions are met, that WG Party's Participation Obligation to license continues with respect to that OpenCAPI Standards Final Deliverable, and any Final Maintenance Deliverable subsequently approved with respect to that OpenCAPI Standards Final Deliverable.

For organizational WG Parties, the sixty (60) day threshold above is met by one or more employees or organizational designees of such Parties having been a WG Member on any 60

calendar days, , although any given calendar day is only one day of membership, regardless of the number of participants on that day.

Each time a new OpenCAPI Standards Draft Deliverable is approved by the WG, the Participation Obligation adjusts to encompass the material in the latest OpenCAPI Standards Draft Deliverable twenty-one (21) days after such draft has been approved for publication.

10. Licensing Requirements

10.1 RAND Mode WG Requirements

For an OpenCAPI Standards Final Deliverable developed by a RAND Mode WG, except where a Licensee has a separate, signed agreement under which the Essential Claims are licensed to such Licensee on more favorable terms and conditions than set forth in this section (in which case such separate signed agreement shall supersede this Limited Patent License), each Obligated Party in such WG hereby covenants that, upon request and subject to Section 11, it will grant to any OpenCAPI Party: a nonexclusive, worldwide, non-sublicensable, perpetual (subject to licensee compliance with this section) patent license (or an equivalent non-assertion covenant) under its Essential Claims covered by its Contribution Obligations or Participation Obligations on fair, reasonable, and non-discriminatory terms to make, have made, use, market, import, offer to sell, and sell, and to otherwise directly or indirectly distribute (a) Licensed Products that implement such OpenCAPI Standards Final Deliverable, and (b) Licensed Products that implement any Final Maintenance Deliverable with respect to that OpenCAPI Standards Final Deliverable.

At the election of the Obligated Party, such license may include a term requiring the Licensee to grant a reciprocal license to its Essential Claims (if any) covering the same OpenCAPI Standards Final Deliverable and any such Final Maintenance Deliverable. The Obligated Party may also include a term providing that such license may be suspended with respect to the Licensee if that Licensee first sues the Obligated Party for infringement by the Obligated Party of any of the Licensee's Essential Claims covering the same OpenCAPI Standards Final Deliverable or any such Final Maintenance Deliverable.

Each Obligated Party, including its Affiliates, agrees that it will not transfer, and has not transferred, patents or published patent applications having Essential Claims solely for the purpose of circumventing its obligations under this Policy. In the event Obligated Party, or its Affiliate, assigns or transfers a patent or published patent application containing, or consisting of, Essential Claims subject to the licensing commitments above, submitted prior to, or at the time of, the assignment or transfer, the Obligated Party, or its Affiliate, agrees that the licensing

commitments made hereunder encumber such patents and patent applications and any assignment or other transfer of a patent or patent application containing, or consisting of, Essential Claims is subject to the licensing commitments herein made prior to such assignment or other transfer.

License terms that are fair, reasonable, and non-discriminatory beyond those specifically mentioned above are left to the Licensees and Obligated Parties involved.

10.2 [Intentionally left Blank]

11. Withdrawal and Termination

A WG Party may withdraw from a WG at any time by notifying the WG Lead in writing of such decision to withdraw. Withdrawal shall be deemed effective when such written notice is sent.

11.1 Withdrawal from a Work Group -- A WG Party that withdraws from an OpenCAPI Work Group shall have Continuing Licensing Obligations based on its Contribution Obligations and Participation Obligations as follows:

- A WG Party that has incurred neither a Contribution Obligation nor a Participation Obligation prior to withdrawal has no licensing obligations for OpenCAPI Standards Final Deliverable(s) originating from that OpenCAPI WG.
- A WG Party that has incurred a Contribution Obligation prior to withdrawal continues to be subject to its Contribution Obligation.
- A WG Party that has incurred a Participation Obligation prior to withdrawal continues to be subject to its Participation Obligation but only with respect to OpenCAPI Standards Draft Deliverable(s) approved more than twenty-one (21) calendar days prior to its withdrawal.

11.2 Termination of an OpenCAPI Membership -- An OpenCAPI Party that terminates its OpenCAPI membership (voluntarily or involuntarily) is deemed to withdraw from all WGs in which that OpenCAPI Party has WG Member(s) representing it, and such OpenCAPI Party remains subject to Continuing Licensing Obligations for each such WG based on its Obligated Party status in that WG on the date that its membership termination becomes effective.

12. Limitations on Liability

ALL OpenCAPI DELIVERABLES ARE PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, AND OpenCAPI , AS WELL AS ALL OpenCAPI PARTIES AND WG MEMBERS, EXPRESSLY DISCLAIM ANY WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR OR INTENDED PURPOSE, ACCURACY, COMPLETENESS, NON-INFRINGEMENT OF THIRD PARTY RIGHTS, OR ANY OTHER WARRANTY.

In no event shall OpenCAPI, any of its constituent parts (including, but not limited to, the OpenCAPI Board), its authors and developers, or its OpenCAPI Parties, be liable to any other person or entity for any loss of profits, loss of use, direct, indirect, incidental, consequential, punitive, or special damages, whether under contract, tort, warranty, or otherwise, arising in any way out of this Policy, whether or not such party had advance notice of the possibility of such damages.

In addition, OpenCAPI Parties and WG Members (or their representatives) shall not be liable to any other person or entity for any loss of profits, loss of use, direct, indirect, incidental, consequential, punitive, or special damages, whether under contract, tort, warranty, or otherwise, arising in any way out of this Policy, whether or not such party had advance notice of the possibility of such damages. OpenCAPI assumes no responsibility to compile, confirm, update or make public any assertions of Essential Claims or other intellectual property rights that might be infringed by an implementation of an OpenCAPI Deliverable.

If OpenCAPI at any time refers to any such assertions by any owner of such claims, OpenCAPI takes no position as to the validity or invalidity of such assertions, or that all such assertions that have or may be made have been referred to.

13. General

13.1. By ratifying this document, OpenCAPI warrants that it will not inhibit the access to OpenCAPI documents for which license and right have been assigned or obtained according to the procedures set forth in this section. This warranty is perpetual and will not be revoked by OpenCAPI or its successors or assigns as to any already adopted OpenCAPI Standards Final Deliverable; provided, however, that neither OpenCAPI nor its assigns shall be obligated to:

13.1.1. Perpetually maintain its existence; nor

13.1.2. Provide for the perpetual existence of a website or other public means of accessing OpenCAPI Standards Final Deliverables; nor

13.1.3. Maintain the public availability of any given OpenCAPI Standards Final Deliverable that has been retired or superseded, or which is no longer being actively utilized in the marketplace.

13.2. Where any copyrights, trademarks, patents, patent applications, or other proprietary rights are known, or claimed, with respect to any OpenCAPI Deliverable and are formally brought to the attention of the WG Lead, OpenCAPI shall consider appropriate action, which may include disclosure of the existence of such rights, or claimed rights. The OpenCAPI Work Group Process shall prescribe the method for providing this information.

13.2.1. OpenCAPI disclaims any responsibility for identifying the existence of or for evaluating the applicability of any claimed copyrights, trademarks, patents, patent applications, or other rights, and will make no assurances on the validity or scope of any such rights.

13.2.2. Where the WG Lead is formally notified of rights, or claimed rights under Section 8 with respect to entities other than Obligated Parties, the OpenCAPI President shall attempt to obtain from the claimant of such rights a written assurance that any Licensee will be able to obtain the right to utilize, use, and distribute the technology or works when implementing, using, or distributing technology based upon the specific OpenCAPI Standards Final Deliverable (or, in the case of an OpenCAPI Standards Draft Deliverable, that any Licensee will then be able to obtain such a right) under terms that are consistent with this Policy. All such information will be made available to the WG that produced such deliverable, but the failure to obtain such written assurance shall not prevent votes from being conducted, except that the WG Lead may defer approval for a reasonable period of time where a delay may facilitate the obtaining of such assurances. The results will, however, be recorded by the WG Lead, and made available to the public. The OpenCAPI Board may also direct that a summary of the results be included in any published OpenCAPI Standards Final Deliverable.

13.2.3. Except for the rights expressly provided herein, neither OpenCAPI nor any OpenCAPI Party grants or receives, by implication, estoppel, or otherwise, any rights under any patents or other intellectual property rights of the OpenCAPI Party, OpenCAPI, any other OpenCAPI Party, or any third party.

13.3. Solely for purposes of Section 365(n) of Title 11, United States Bankruptcy Code, and any equivalent law in any foreign jurisdiction, the promises under Section 10 will be treated as if they were a license and any OpenCAPI Party or third-party may elect to retain its rights under this promise if Obligated Party, as a debtor in possession, or a Bankruptcy trustee in a case under the United States Bankruptcy Code, rejects any obligations stated in Section 10.

14. Notices

14.1 All materials produced by OpenCAPI Consortium shall include the following notices replacing [copyright year] with the year or range of years of publication:

Copyright © OpenCAPI Consortium [copyright year]. All Rights Reserved.

All capitalized terms in the following text have the meanings assigned to them in the OpenCAPI Intellectual Property Rights Policy (the "OpenCAPI IPR Policy"). The full Policy may be found at the OpenCAPI website.

This document and the information contained herein is provided on an "AS IS" basis AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, THE OpenCAPI Consortium AS WELL AS THE AUTHORS AND DEVELOPERS OF THIS STANDARDS FINAL DELIVERABLE OR OTHER DOCUMENT HEREBY DISCLAIM ALL OTHER WARRANTIES AND CONDITIONS, EITHER EXPRESS, IMPLIED OR STATUTORY, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES, DUTIES OR CONDITIONS OF MERCHANTABILITY, OF FITNESS FOR A PARTICULAR PURPOSE, OF ACCURACY OR COMPLETENESS OF RESPONSES, OF RESULTS, OF WORKMANLIKE EFFORT, OF LACK OF VIRUSES, OF LACK OF NEGLIGENCE OR NON-INFRINGEMENT.

14.2. All OpenCAPI Standards Final Deliverables documents shall also include the following:
OpenCAPI requests that any OpenCAPI Party or any other party that believes it has patent claims that would necessarily be infringed by implementations of this OpenCAPI Standards Final Deliverable, to notify OpenCAPI and provide an indication of its willingness to grant patent licenses to such patent claims in a manner consistent with the IPR Mode of the OpenCAPI Work Group that produced this deliverable. OpenCAPI invites any party to contact the OpenCAPI Work Group Lead if it is aware of a claim of ownership of any patent claims that would necessarily be infringed by implementations of this OpenCAPI Standards Final Deliverable by a patent holder that is not willing to provide a license to such patent claims in a manner consistent with the IPR Mode of the

OpenCAPI Work Group that produced this OpenCAPI Standards Final Deliverable. OpenCAPI may include such claims on its website, but disclaims any obligation to do so.

OpenCAPI takes no position regarding the validity or scope of any intellectual property or other rights that might be claimed to pertain to the implementation or use of the technology described in this OpenCAPI Standards Final Deliverable or the extent to which any license under such rights might or might not be available; neither does it represent that it has made any effort to identify any such rights. Information on OpenCAPI procedures with respect to rights in any document or deliverable produced by an OpenCAPI Work Group can be found on the OpenCAPI website. Copies of claims of rights made available for publication and any assurances of licenses to be made available, or the result of an attempt made to obtain a general license or permission for the use of such proprietary rights by implementers or users of this OpenCAPI Standards Final Deliverable, can be obtained from the WG Lead. OpenCAPI makes no representation that any information or list of intellectual property rights will at any time be complete, or that any claims in such list are, in fact, Essential Claims.

14.3 Additional Copyright Notices -- Additional copyright notices identifying Contributors and/or copyrights held by non- OpenCAPI Parties may also be included with the OpenCAPI copyright notice.

Appendix A. Contribution/Feedback License

1. Copyright - You (and your represented organization and its Affiliates) grant to OpenCAPI a perpetual, irrevocable, non-exclusive, royalty-free, worldwide copyright license, with the right to directly and indirectly sublicense, to copy, publish, and distribute the Feedback in any way, and to prepare derivative works that are based on or incorporate all or part of the Feedback, solely for the purpose of developing and promoting the OpenCAPI Deliverable and enabling the implementation of the same by Licensees or Beneficiaries.

2. Essential Claims - You covenant to grant a patent license under any patent claims that you (or your represented organization or its Affiliates) own or control that become Essential Claims because of the incorporation of such Feedback into the OpenCAPI Standards Final Deliverable, and any Final Maintenance Deliverable with respect to that OpenCAPI Standards Final Deliverable, on terms consistent with Section 10 of the OpenCAPI IPR Policy for the IPR Mode specified in the charter of this OpenCAPI Work Group. You also covenant to grant a patent license under any patent claims that you (or your represented organization or its Affiliates) own or control that are Essential Claims because of the incorporation of such Feedback into an OpenCAPI Standards Draft Deliverable and covering making or using (but not selling or otherwise distributing) an implementation of such OpenCAPI Standards Draft Deliverable, solely for the purpose of testing and developing such deliverable and only until either the OpenCAPI Standards Draft Deliverable is approved as an OpenCAPI Standards Final Deliverable or the relevant Work Group(s) is closed.

3. Right to Provide - You warrant to the best of your knowledge that you have rights to provide this Feedback, and if you are providing this Feedback on behalf of an organization, you warrant that you have the rights to provide this Feedback on behalf of your organization and to bind your organization and its Affiliates to the licensing obligations provided above.

4. Confidentiality - You further warrant that no information in this Feedback is confidential, and that OpenCAPI may freely disclose any information in the Feedback.

5. No requirement to Use - You also acknowledge that OpenCAPI is not required to incorporate your Feedback into any version of any OpenCAPI Deliverable.

Appendix B. Copyright License Grant

All OpenCAPI Consortium Members grant to OpenCAPI a perpetual, irrevocable, non-exclusive, royalty-free, world-wide copyright license, with the right to directly and indirectly sublicense, to copy, publish, and distribute the Contribution in any way, and to prepare derivative works that are based on or incorporate all or part of the Contribution solely for the purpose of developing and promoting the OpenCAPI Deliverable and enabling the implementation of the same by Licensees or Beneficiaries (all above capitalized terms are defined in the OpenCAPI Intellectual Property Rights ("IPR") Policy, see www.opencapi.org .

Appendix C: Formal Confidentiality Terms

C.1 Mode Specific Terms

C.1.1. [Intentionally Left Blank]

C.1.2. Formation Confidentiality

All WG Parties and WG Members are subject to the following confidentiality obligation to OpenCAPI, with each WG Party and WG Member being third-party beneficiaries thereof, immediately upon joining the WG and the consent of such new WG Members or WG Parties shall not be required. "WG Confidential Information" shall mean the items identified in the WG charter, optionally including the WG formation. The WG, TSC, and Board must all approve public release of WG Confidential Information by the WG.

C.1.3 Written Confidentiality

All WG Parties and WG Members are subject to the following confidentiality obligation to OpenCAPI, with each WG Party and WG Member being third-party beneficiaries thereof, immediately upon joining the WG. "WG Confidential Information" shall mean the confidential items that have been disclosed to the WG by the WG Parties and WG Members, optionally including the WG formation, that is marked as "Confidential" for the length of time specified in the WG Charter. The WG and the Discloser must both approve public release of WG Confidential Information by the WG, other than as part of an OpenCAPI Standards Final Deliverable.

C.2. General Terms

"Discloser" shall mean the WG Member or WG Party that provides the WG Confidential Information. "Recipient" shall mean all WG Parties that are members of this WG. The Discloser will not disclose any Confidential Information which the Discloser does not have the right to disclose to the Recipient.

WG Confidential Information may be disclosed by: (i) presentation; (ii) delivery; (iii) authorized access, such as to a database; or (iv) any other express means. For the Confidentiality Term specified in the WG Charter, with a default of five (5) years, after the date of disclosure, the Recipient will use the same care and discretion to avoid disclosure of the Discloser's Confidential Information as the Recipient uses with its own similar information which it does not wish to disclose

The Recipient may disclose the Discloser's WG Confidential Information to: (i) its employees and contractors, and employees and contractors of any Affiliate, who have a need to know; (ii) any other party with the Discloser's prior written consent; and (iii) other WG Parties and WG Members who are members of this WG. Prior to any such disclosure by the Recipient, the Recipient must have an appropriate agreement with any such party sufficient to require the party to treat WG Confidential Information in accordance with this Policy. The Recipient may disclose WG Confidential Information to the extent required by law, but must give the Discloser reasonable prior notice to allow the Discloser a reasonable opportunity to obtain a protective order. Notwithstanding the foregoing, no obligation will apply to any WG Confidential Information that is: (i) already rightfully in the Recipient's possession, or rightfully received by the Recipient, without a nondisclosure obligation; (ii) developed independently by the Recipient; (iii) publicly available when received, or thereafter becomes publicly available through no fault of the Recipient; (iv) disclosed by Discloser to a third party without a nondisclosure obligation; (v) inherently disclosed by the Recipient in the use, distribution, or marketing of any product or service; (vi) included in an OpenCAPI Standards Final Deliverable and Code released with such OpenCAPI Standards Final Deliverable; or (vii) an OpenCAPI Deliverable or OpenCAPI Standards Draft Deliverable, including any Code, that is publicly released outside the WG.

THE DISCLOSER PROVIDES WG CONFIDENTIAL INFORMATION SOLELY ON AN "AS IS" BASIS. Any WG Confidential Information regarding the Discloser's future products or services is subject to change or withdrawal without notice. The development, release, and timing of any future features or functionality described for Discloser's and its Affiliates' products and services remains at Discloser's sole discretion.

Neither this Agreement, nor any disclosure of WG Confidential Information hereunder, in any way: (i) grants to Recipient or its Affiliates any right or license under any copyright, patent, mask work or trademark now or hereafter owned or controlled by the Discloser; (ii) obligates the Discloser or the Recipient or their Affiliates to disclose any WG Confidential Information, perform any work, enter into any license, business engagement or other agreement; (iii) limits the Discloser or the Recipient or their Affiliates from developing, manufacturing or marketing products or services which may be competitive with those of the other; (iv) limits the Discloser or the Recipient or their Affiliates from assigning or reassigning its or their employees in any way; (v) creates any joint relationship, or authorizes the Discloser or the Recipient or their Affiliates to act or speak on behalf of the other; or (vi) limits the Discloser or the Recipient or their Affiliates from entering into any business relationship with any other party.
